Saint Anthony

Saints' Corner (13th June): Saint Anthony (Fernando Martins) was born in Lisbon, Portugal (1195 - 1231). His feast day is June 13th. He was born into a wealthy family and by the age of fifteen asked to be sent to the Abbey of Santa Cruz in Coimbra, the then capital of Portugal. During his time in the Abbey, he learned theology and Latin. Following his ordination to the priesthood, he was named guest-master and was responsible for the abbey's hospitality. When Franciscan friars settled a small hermitage outside Coimbra dedicated to Saint Anthony of Egypt, Fernando felt a longing to join them. Fernando eventually received permission to leave the Abbey so he could join the new Franciscan Order. When he was admitted, he changed his name to Anthony. Anthony then travelled to Morocco but became extremely sick and was returned to Portugal to recover. The return voyage was blown off-course and the party arrived in Sicily, from which they travelled to Tuscany. Anthony was assigned to the hermitage of San Paolo after local friars considered his health. As he recovered, Anthony spent his time praying and studying. He was an eloquent speaker and good teacher. He was only 36-years-old when he died and was canonized less than one year afterward by Pope Gregory IX. 336 years after his death, his body was found to be corrupted, yet his tongue was totally incorrupt which was used to deliver eloquent homilies and perfect teachings. He is typically depicted with a book and the Infant Child Jesus and is commonly referred to today as the "finder of lost articles."
